# Big, bigger, the biggest

How big are you? Over one metre tall? That is quite big, but it is not as big as some of

the things in this book. They are record breakers!

They are the biggest things of their kind.

The saltwater crocodile is the biggest **reptile** in the world. Look at its sharp teeth! Read about it on page 9.

## Think big!

What is BIG? It depends on your size. A tiny bug thinks garden birds are very big.
