**Global Stage is a 6-level language and literacy course for young learners that gets the next generation's high-flyers off to a great start. It supports their growth into competent speakers and writers of English, and caring, responsible citizens fully prepared to succeed as the leaders of tomorrow.**

The course brings together a rigorously benchmarked language syllabus with a diverse and engaging literacy programme. The Language Book and Literacy Book provide a complete English learning experience. Designed to be used together, they cover the four skills and provide a solid foundation in vocabulary and grammar, whilst supporting the development of Self-Direction, Thinking Skills, Social and Emotional Skills and Global Citizenship, helping students develop the confidence they need to excel in their education and in life.

- With dedicated writing and speaking lessons **Global Stage** nurtures children to become competent speakers and writers of English so they can confidently engage with subject areas across the curriculum.
- *Global Citizenship* lessons teach students about the lives of other children around the world and help make connections to their own lives, encouraging them to think beyond their immediate community, and be globally oriented, competent and conscientious.
- Creative thinking tasks, such as the *Visible Thinking Routines*, a research-based framework developed out of Harvard University, help to guide learners' thought processes and to gradually become independent learners.
- The **NEW Language Workbook** provides additional opportunities for heads-down grammar and vocabulary practice, with activities graded at different levels of difficulty, to ensure that students progress at their own pace.
- Clearly sequenced *Tap & Teach* lessons in the Teacher App reduce lesson preparation time while gamified language and literacy activities in the Student App on Navio extend students' contact with English outside the classroom.

**Get Involved!** equips teenage students with the sense of excitement and appetite to explore the world ahead of them. It develops the linguistic skills and *Super Skills*, encouraging them to get involved in driving their future. The course also enables teachers to create an inclusive classroom where everyone reaches their potential and has an opportunity to shine.

*What makes a hero? What is an ideal school? Why do people dress up?* Each unit starts with a question to generate curiosity and ensure every student gets involved. Throughout the unit learners gain the knowledge, the language and skills to answer the question in the end-of-the-unit *Collaborative Project*. Completing the project gives students an opportunity to use the new language and skills straightaway.

- **Get Involved!** provides authentic contexts and empowers students to talk about real-life issues with confidence through the *Collaborative Projects*.
- Practical solutions for mixed-ability classes include *Brain Teaser* logical activities and Workbook exercises at three different levels of challenge so everyone can succeed and show their talents.
- Three genres of video in every unit expose students to English as it is really spoken and help them develop their language and visual literacy skills.
- Gamified activities on the Student's App encourage students to practise English outside the classroom while teachers can monitor their work through the *Progress Tracker* in the Teacher's App.
- With the fully flexible component mix, including a range of digital tools for teachers and students, the course is ready for teaching face-to-face, online or any combination of the two.

The books put grammar in context and present it in more interesting ways. Piracy is taken very seriously by Macmillan Education as it negatively impacts both authors and our ability to produce high quality books and services. Macmillan Education titles are protected by a dedicated Anti-Piracy team within the General Counsel's Office.

**Copying**

The UK Copyright, Designs and Patents Act of 1988 allows a reader to make a single copy of a limited portion of a work for the purposes of non-commercial research or private study (fair dealing). This limit is subjective and advice should be sought from Macmillan Education. It does not allow the copying of entire books or the making of multiple copies of extracts. In some countries it is possible for schools to do a limited amount of photocopying under the terms of a licence issued by a licensing agency such as the Copyright Licensing Agency (CLA) in the UK. It is also permissible to photocopy copyright material when the publisher has designated a book or part of a book 'photocopiable'. This special permission is always indicated clearly in the book both at the front and on every photocopiable page. Many of the Teacher's Books that accompany Macmillan Education ELT courses contain such photocopiable material. Under no circumstances may schools photocopy materials for use in self-access centres, unless they have registered with the Copyright Licensing Agency or an associated licensing agency and allow/use photocopying strictly in accordance with their regulations. Please see our website or contact Macmillan Education for further details on copying limits.

**Rights and Permissions**

Very old Macmillan titles with ISBNs commencing 0023 & 0024 are copyrighted to Prentice Hall/Pearson Higher Education US: [USAPermissions@pearson.com](mailto:USAPermissions@pearson.com). Please note also that Free Press, Collier Macmillan and Macmillan Inc. (Macmillan New York) are not part of the Macmillan Group in the UK, these are part of Simon & Schuster in USA: [www.simonandschuster.com/about/contact\\_info](http://www.simonandschuster.com/about/contact_info). # Play **your part** in shaping the future of education.

Education has been evolving at an increasing pace from classroom-based towards mixed modality or online, posing new challenges for educators, institutions, learners and parents.

Part of our mission to advance learning is to assist the ELT community in this change. We do so by **listening** to your experiences, **learning** about your needs and **acting** on this knowledge to provide you with the right solutions and tools that will inspire and support your students.

That's why we have launched the **Insights Index** – a **global research programme** connecting ELT experts and teachers in order to jointly evolve teaching practices and materials.

**Enhance** your professional development by collaborating with the creators of teaching materials to shape future solutions, **earn** donations to charities supporting education and **receive** a certificate acknowledging your commitment.

Sign up to the **Insights Index** panel at
