Education for Sustainable Development and Citizenship

We recognise the role that educators play in shaping young minds to create a fairer and more sustainable vision for our future.

That's why we have designed the ***Education for Sustainable Development and Citizenship Programme***.

It helps teachers of English to **share knowledge, develop skills and promote attitudes and actions** that can bring about positive and lasting change.

*Every text
is an opinion.
Every lesson
is an opportunity.*

KNOWLEDGE

Understanding precedes change. The ESDC Programme equips teachers with content, practical tools and training to help them introduce their students to the principles of Global Citizenship Education (GCE), Diversity, Equity and Inclusion (DEI) and Sustainable Development Goals (SDGs).

SKILLS

The power to act competently comes from the right skills set. The ESDC Programme supports teachers in developing the skills their students need to be positive participants in the community.

ATTITUDES & ACTIONS

Sometimes all it takes to make a difference is one inspiring idea. The ESDC Programme empowers teachers to inspire students to think critically about how their actions affect the world around them, and to take tangible steps towards a better world.

Get Involved!

NEW

GILL HOLLEY, KATE PICKERING, CATHERINE McBETH, PATRICIA REILLY, EMMA HEYDERMAN

Get Involved! equips teenage students with the sense of excitement and appetite to explore the world ahead of them. It develops their linguistic skills and *Super Skills*, encouraging them to get involved in driving their future. The course also enables teachers to create an inclusive classroom where everyone reaches their potential and has an opportunity to shine.

What makes a hero? What is an ideal school? Why do people dress up? Each unit starts with a question to generate curiosity and ensure every student gets involved. Throughout the unit learners gain the knowledge, the language and skills to answer the question in the end-of-the-unit *Collaborative Project*. Completing the project gives students an opportunity to use the new language and skills straightaway.

- **Get Involved!** provides authentic contexts and empowers students to talk about real-life issues with confidence through the *Collaborative Projects*.
- Practical solutions for mixed-ability classes include *Brain Teaser* logical activities and Workbook exercises at three different levels of challenge so everyone can succeed and show their talents.
- Three genres of video in every unit expose students to English as it is really spoken and help them develop their language and visual literacy skills.
- Gamified activities on the Student's App encourage students to practise English outside the classroom while teachers can monitor their work through the *Progress Tracker* in the Teacher's App.
- With the fully flexible component mix, including a range of digital tools for teachers and students, the course is ready for teaching face-to-face, online or any combination of the two.

Worldwide rights

Some of our titles are market restricted in certain regions of the world. For full details on the rights issues please visit the 'Rights & Permissions' page on www.macmillaneducation.com

Anti-Piracy

Reporting illegal e-book piracy and physical counterfeits. The sharing and downloading of Macmillan Education books and materials online is an illegal activity which breaches international copyright and trademark law, as is the unauthorised copying and distribution of physical products.

Piracy is taken very seriously by Macmillan Education as it negatively impacts both authors and our ability to produce high quality books and services. Macmillan Education titles are protected by a dedicated Anti-Piracy team within the General Counsel's Office. To report suspected piracy of Macmillan products please contact us at anti-piracy@springernature.com

Copying

The UK Copyright, Designs and Patents Act of 1988 allows a reader to make a single copy of a limited portion of a work for the purposes of non-commercial research or private study (fair dealing). This limit is subjective and advice should be sought from Macmillan Education. It does not allow the copying of entire books or the making of multiple copies of extracts. In some countries it is possible for schools to do a limited amount of photocopying under the terms of a licence issued by a licensing agency such as the Copyright Licensing Agency (CLA) in the UK. It is also permissible to photocopy copyright material when the publisher has designated a book or part of a book 'photocopiable'. This special permission is always indicated clearly in the book both at the front and on every photocopiable page. Many of the Teacher's Books that accompany Macmillan Education ELT courses contain such photocopiable material. Under no circumstances may schools photocopy materials for use in self-access centres, unless they have registered with the Copyright Licensing Agency or an associated licensing agency and allow/use photocopying strictly in accordance with their regulations. Please see our website or contact Macmillan Education for further details on copying limits.

Rights and Permissions

If you would like to reproduce, translate or quote from material published by Macmillan Education in print, online, on television, on radio or via other digital media, please check first that we are the correct copyright holders by reading the following information: Only titles commencing with the following ISBNs, 978 1405-0, 978 0330, 978 0333, 978 0230 & 978 0435 will be copyrighted to Macmillan Education. For other titles, you will need to consult a bibliographic service such as the British Library or Library of Congress, which will assist you to find the correct copyright holder.

Very old Macmillan titles with ISBNs commencing 0023 & 0024 are copyrighted to Prentice Hall/Pearson Higher Education US: USAPermissions@pearson.com. ISBNs commencing 0028 (Macmillan Library Reference titles) are now copyrighted to Cengage. Please contact Cengage directly for any re-use query. Please note also that Free Press, Collier Macmillan and Macmillan Inc. (Macmillan New York) are not part of the Macmillan Group in the UK, these are part of Simon & Schuster in USA: www.simonandschuster.com/about/contact_info. Any requests for Pan Macmillan UK should be sent to: www.panmacmillan.com

If you have a permissions or rights request, you will need to complete a form to give us full details. Visit www.springernature.com/macmillaneducation/work-with-us/rights-permissions to access and submit the Rights Request Form.

No requests will be considered or responded to if the required form is not completed. This is to ensure that we have all the necessary data to process your request.

PLEASE NOTE: Macmillan reserves the right to charge an administration fee of £35 to cover any direct costs should your request be granted, and there may also be an additional fee for the right to reproduce or use the material.
