*In this talk we will look at ways of bringing visuals into the business English classroom. Images, video clips and infographics can all add a bit of colour to our business lessons. We can also use them to present new structures and vocabulary, to help students put this language into practice and as a springboard for lots of great discussion. During this session – drawing on examples from In Company 3.0 and other sources - we will look at a variety of practical exercises that will add fun and lots of effective learning to your business English classes.*
